Price	Free
Runs on	iPhone and iPad (iOS 17 or later); Android phones, tablets and foldables
Works with	CarPlay, the Lock Screen and Dynamic Island, widgets, Control Center, Siri
Category	Music

What's in it

The Day. A dial from midnight to midnight. A blaze marks where each song begins and a hatchet keeps the time.

An engraving for every song. A quiet scene in sepia for each, the light, the weather and the water moving gently while it plays.

The words. They follow the singer line by line. Tap one to sing from there.

The Lantern. The sound of the song, drawn as it plays. Hold it, slide through it, flick it into the next song.

The logbook. Blazes left out on the record for whoever finds them. Log a find and it joins everyone else's.

No signal needed. The whole record lives inside the app. In the car it works with CarPlay.

On iPhone and iPad. The Lock Screen and Dynamic Island, widgets, Control Center, the Action button and Siri. On iPad the words sit beside the Day.

On iPhone Duo. The record opens like a field journal (iOS 27.1). Not yet tested on a real Duo: tell us how it opens.

On Android. Headphones, car and lock screen. On a foldable the Day stands above the fold; a charging tablet can show it as a screensaver.

Accessibility

On iPhone and iPad, with Reduce Motion on, each engraving holds still. Every song's words are on screen, line by line.

Privacy

No account, no ads, no tracking; the optional logbook goes online only after you say yes.
